BACKING UP PROOF.

The Kind That Alma People Cannot Deny

Many an earnest Alma man or woman has publicly endorsed Doan's Kidney Pills.

Week after week, month after month you've read their statements.

Would these Alma people recommend any medicine if it were not good?

Would they confirm and repeat their statements after years had passed?

Local proof is good evidence. Testimony confirmed years after is better evidence.

The following Alma man's statement leaves no room for doubt.

It must convince every kidney sufferer who reads it.

If your back aches—if your kidneys are weak, profit by Mr. Griffin's experience.

E. Griffin carpenter and contractor 312 Woodworth Ave., Alma, says: I have used Doan's Kidney Pills on several different occasions for kidney weakness and backache and they have regulated the action of my kidneys and removed the lameness and soreness in my loins.

After a lapse of over three years, Mr. Griffin added, "I am glad to confirm my former endorsement of Doan's Kidney Pills. They are a most valuable medicine for kidney complaint."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mr. Griffin has twice publicly recommended. Foster-Milburn Co., Props., Buffalo, N. Y.

The I. C. S. have contracted with 240 railroad companies and have contracts and agreements with manufacturing companies, such as the Interborough Rapid Transit Company, of New York City and New Jersey. This is one of the largest and they belong to the American Electric Railway Association. This association has arranged for special courses with the I. C. S.

These schools have from 75 to 120 graduates per week and from 350 to 450 students report success or promotion each and every month.

To go through an I. C. S. course will test you for the job. If you cannot stand the test of the courses, then you cannot stand the test of the job. It's up to you.	A gardner went out to his garden to pull the weeds out from among the plants so as to give the plants a chance to grow. The weeds and the poor plants were cast aside and the good plants grew.	Which are you? The good plant, the poor plant or the weed? The I. C. S. is the gardner.

Now review what has been said, then ponder for awhile, then take inventory of yourself and say to yourself that you will stop drifting and stop making mistakes.

The I. C. S. is the largest educational institution in the world. Results has made it so.	The I. C. S. aids students to positions and promotions and keeps your employer informed as to your progress.	Over 100,000 students are studying and getting I. C. S. system of training. They can handle 100,000 or more besides what they have.

Manufacturing companies need skilled help. Keen competition demands it.

You may know the material end of a trade or profession, but the man who knows both ends is the master and he gets the money.	Let the I. C. S. furnish you with expert ideas and fill in the missing links, so that you can lay out your work before you do it, and save time, material and money for your employer.	If you are an expert material man, the best way to prove it is to have the I. C. S. make a record of your ideas and polish them.
